Summary

An enthusiastic B.Sc. CSIT undergraduate with foundational knowledge in software testing and quality assurance. Familiar with test case design, test execution, and defect tracking using Jira. Experienced in API testing using Postman and basic test automation concepts using Cypress. Eager to contribute to a collaborative team and support the delivery of reliable and high-quality software products.

Technical Skills

- **Testing & QA:** Manual Testing, Test Case Design, Test Plan Preparation, Defect/Bug Reporting (JIRA)
 - **Testing Tools:** Cypress (Basic Automation), Postman (API Testing), JMeter (Performance Testing)
 - **Methodologies:** SDLC, STLC, Agile Methodology, Scrum, Bug Life Cycle & Defect Management
 - **Programming Knowledge:** JavaScript, Python, SQL
 - **Collaboration & Tools:** Team Collaboration, Communication, Problem Solving, Adaptability
-

Experience

[Leapfrog Connect — QA Foundations Training](#) (Dec 2025 – Mar 2026)

- Completed structured training in software testing and QA workflows within Agile development environments.
- Practiced test plan preparation, test case design, test execution, and defect tracking using JIRA.
- Performed API testing using Postman and explored basic automation concepts using Cypress.
- Gained practical understanding of SDLC, STLC, and the bug life cycle through project-based exercises.

Project Support Trainee — Digischool Global (June 2025 – Jan 2026)

- Facilitated school workshops introducing technologies such as AI, IoT, and digital learning tools.
- Assisted in coordinating training sessions and supporting technology-based learning activities.

Team Member – Marketing, Outreach & Social Media — UbuCon Asia 2025, GNOME Nepal (Jan 2025 – Aug 2025)

- Contributed to planning and organizing the UbuCon Asia 2025 open-source conference.
- Assisted in outreach, communication, and event coordination activities.

QA Projects

Employee Management System — Manual Testing

- Prepared a sample test plan outlining testing scope, objectives, and strategy.
- Designed structured [test cases](#) to validate employee management workflows and user scenarios.

Website Testing & QA Audit — Web Application

- Performed functional, UI/UX, and basic performance testing on a web application, executing test cases and documenting issues.
- Prepared test plan and summary report with key findings.

Automation Practice

- Executed UI test cases and practiced automation using Cypress.
- Performed API testing with Postman to validate responses and status codes.
- Explored basic performance testing concepts using JMeter.

Education

Bachelor of Science in Computer Science and Information Technology (B.Sc. CSIT)
Padmakanya Multiple Campus, Tribhuvan University
Feb 2022 – Present
